BROOKS GOES TO TRIAL

ALLEGED RAPIST WILL FACE THE JURY TO-DAY.

Negroes of Dallas Are Interested in the Punishment of the Culpit.

Dallas, March 2.—Tomorrow Allen Brooks, negro, aged fifty years, will be tried on a charge of committing criminal assault on the three-year-old Buena child. The attorneys appointed by the court to represent him are R. H. Capers, T. H. Lewis and F. D. Cosby, Attorney R. M. Clark, representing the state, has prepared his evidence. According to rumors the evidence submitted will prove beyond question that Allen Brooks is the guilty man. Brooks said he would fight the case several days ago when arrested.

Sheriff A. L. Ledbetter was as uncommunicative as ever relative to the whereabouts of Allen Brooks. He is not apprehensive of any further attempts to keep the law from taking its course. He has been instructed by Judge R. B. Seay of the criminal district court to keep order during the trial, if it should be held tomorrow. It is the intention of the court to prevent the court room from becoming crowded at any time during the trial.

Reports were received today to the effect that Allen Brooks is now in Denton. Sheriff Ledbetter admitted that Brooks had been in the Sherman jail but is not now there. Other than that he would not say, Brooks will, in all probability, be brought to Dallas early tomorrow morning. The case will go to trial promptly at 9:30 o'clock with the selection of a jury.

That the negroes of Dallas are interested in the punishment of Brooks is proven by the request made to Judge R. B. Seay today by N. J. Johnson pastor of the St. Paul colored Methodist church, C. L. McPherson, pastor of the colored Baptist church, and J. S. Wyatt, superintendent of the Dallas Methodist district, that they be allowed to witness the trial. They are unanimous in their opinion that the negro be punished immediately for his crime.

F. D. Cosby said yesterday that he was ill and did not know whether he would be able to take part in the trial. R. H. Capers said that he would obey the mandate of the court, as any other of the officers of the court would do.

Both branches of the city council meets tomorrow afternoon and some action by the political organization in power is expected. While efforts to bring about peace are being made, organized labor is going ahead with arrangements to carry out the general strike order of the Central Labor Union.

200 FEET INTO CANYON

TWO PASSENGER TRAINS SWEEP OFF THE TRACKS.

Over Fifty Persons Reported Dead.

No Way to Reach Scene Except on Foot.

Everett, Wash., March 2.—As further details of the disaster that overwhelmed two Great Northern passenger trains when an avalanche swept the two trains and a portion of the town of Wellington, at the west portal of Cascade tunnel, down the mountain side, are received, the horror grows.

Twenty-three lives are known to have been lost when the mass of snow, loose stones and uprooted trees buried cars containing seven sleeping people over the narrow ledge high line down to the bottom of the canyon, 200 feet below.

When the last reports were received from the scene of the catastrophe, twenty-five more persons were missing. Besides these a score are seriously injured.

Complete lists of the injured cannot be obtained until rescuers have dug all bodies out of the wreckage. The lists available at present contain only the names of trainmen killed and injured.

The two trains that were carried away by the great wave of ice and snow were the westbound Spokane Limited and the westbound Spokane Continental fast mail. The latter carries no passengers.

Most of the dead and injured are believed to have been passengers on the Spokane express; forty of whom were on the train at the time of the disaster. Besides these, thirty workmen, who had been engaged in the battle against drifts that had been holding the ill-fated trains imprisoned in the mountains since February 24, were sleeping in the day coaches. When the avalanche rolled down the mountain the two trains, three locomotives and four powerful motors, a depot and a water tank were swept off the ledge and deposited in a twisted mass of wreckage at the foot of the mountain. The noise from the snow slide, which was a mile long, could be heard throughout the valley, and Superintendent Oniz, who was directing the work of the night shift, marshaled his men and hurried to the rescue.

Gondokoro, March 2.—A native runner from the province of Mongalia reached here today with the news of the enthusiastic reception with which Colonel Roosevelt and his party is receiving at ports on the Bar El Jabel, where the steamer Dal is making stops.

As the steamer drew into Lado the Americans witnessed the most pleasant sight of an immense American flag flying above the landing. Drawn up on the wharf was a guard of honor, composed of ninety native Belgian soldiers. Major Remke, the Belgian commandant, gave a luncheon to the Americans. At Mongolia a still greater reception awaited the party.

NEW LAW NOT IN FORCE

DOES NOT APPLY IN OLD LOCAL OPTION DISTRICTS.

Prisoner is Released From Felony Charge and is Remanded for Misdemeanor.

Austin, Tex., March 2.—Our opinion is that under the law, that the act of the Thirty-first legislature approved April 24, 1909, does not and cannot apply to counties which had theretofore adopted local option.

This is the opinion of the court of criminal appeals rendered today in the case of Love Lewis from Hill county who had been convicted in November for selling intoxicating liquors in local option territory in violation of the act of the Thirty-first legislature making it a felony to sell liquor in local option territory.

This is a most important decision in that there were a number of cases pending throughout the state involving this same question. The court holds that the law is not applicable to counties where local option was in force prior to its passage. The court thereupon reversed the case and remanded the proceedings to the court having jurisdiction to try misdemeanor cases. The court says that it has been uniformly held by the court of criminal appeals for the past twenty-five years that it is not within the power of the legislature to impose upon a community which had theretofore adopted local option, penalties and forfeitures which did not exist at the time of such adoption. Lewis was given one year in the penitentiary.

DRIVEN FROM HOMES

DISTRESSING SCENES IN THE FLOODED DISTRICT.

Only Means of Transportation in a Number of Inundated Towns. Ice Gorges a Standing Menace.

Cleveland, Ohio, March 2.—Fully one thousand persons homeless, other thousands living on the second floors of homes, traffic impeded and business demoralized in many places. Is the situation in Ohio today as the result of the recent floods. While the high water has receded somewhat in most of the river valleys, yet in others danger from ice gorges still remained.

Rain still prevails in the southern part of the state, which adds to the flood in the Ohio river valley. At Zanesville, several hundred families have been driven from their homes and the suffering is acute. At Fremont great danger still lurks about the gorges Sandusky river.

SITUATION AT HERKIMER.

Waters Are Falling but Streets Are Still Flooded.

Little Falls, N. Y., March 2.—Waters from the Mohawk river and West Canada creek, which have inundated the streets of Herkimer for two days today have fallen one foot, but are still so deep in the principal streets and transportation is impossible except by boats.

Dynamite was sent to Herkimer today and an effort will be made to blow up the gorge in the Mohawk river. The Mohawk division of the New York Central railroad between Utica and Albany has been temporarily abandoned. All New York Central trains are running on the West Shore railroad tracks.

Bananas ten cents a dozen.—Noble & Kimbrough.

CONE JOHNSON AT DALLAS

SHALL BAILEY DICTATE GOVERNOR OF TEXAS.

Are Issues to be Settled on Their Merits or Are the Wishes and Interests of One Man to Control.

Dallas, Tex., March 2.—Cone Johnson spoke at the court house here tonight to a great and enthusiastic audience.

He referred to the fact that this was the anniversary of Texas' independence and said that struggle ended in opening to the world the best opportunity for free government. That the sturdy pioneers of Texas were devoted to liberty and untrammelled by the influences of ancient customs and conventions.

The vast area of Texas afforded room for the spread of population so that there would be no congestion while the foundations of government and our institutions were forming and the great area of fertile land invited the independent husbandman thus giving us a great agrarian population necessary to preserve the balance of political and economic and industrial power.

If ever free government for the people to be administered in their interest has had a free opportunity it has been in Texas. The great task of statesmanship now is to preserve the government, its institutions and our vast opportunities for the equal enjoyment of all the people. We need to declare our independence:

1. From the blighting, demoralizing and corrupting influence of the professional machine politician, the political time-server, wire-worrier and busy-body.

2. Our independence on the domination and oppression of swollen and illegal wealth and its corrupting influence upon the legitimate industry and wealth of the people.

3. A declaration of independence announcing the dissolution of the partnership between the commonwealth and legalized evil. Freedom from the blighting and demoralizing influence, both social and political of the legalized whiskey traffic is the next step in the security of the civilization was begun with Texas' independence. The only blot on Republican government in this country was the strain put there by corrupt politics which could always be found ready to embrace the paralyzing and sapling influence of unlawful schemes to prey upon the people
